About Me

I'm passionate about technology and have experience with React Native, Node.js, MongoDB, and Django. I enjoy learning new skills and building practical solutions like e-commerce apps and farmer-to-buyer platforms.

INTERNSHIPS Brassy Technology

June 2024

Mobile App Developer(React Native)

- Completed an internship focused on Mobile App development, gaining hands-on experience with html, css, java script, and real-world mobile app deployment practices.

PROJECTS

Mobile App for Direct Market Access for Farmers

[Project Link](#)

- Built a App using React Native,Html,css,js and MongoDB with guided Upload product, Buy the product , add cart, and security register Login.

Hospital Management System

[Project Link](#)

- Built a Hospital Management System using Django python code for patient data handling, appointment booking, and admin control via web interface.

Online Shopping Application

[Project Link](#)

- A React Native shopping application that offers a seamless and user-friendly interface for browsing, adding to cart, and purchasing products. Built with cross-platform support, it ensures smooth performance on both Android and iOS devices.

CERTIFICATIONS

- MERN stack development – Vei Technology (Value Added Course)
- ICNEAI – 2025
- Best Coordinator Award – Symposium
- International Certificate – Microsoft Azure Fundamentals Certificate of Appreciation – Volunteer

work

Currently working at FlyTowards Digital Innovation(sankarankovil), a startup company, with hands-on experience in more than 5 live projects that are successfully deployed and running in production.
